

# KJÓ SARVEITUR

February 15th. 2016

Dear property owner in the county of Kjós

A purchase agreement has been made for the pipes and accessories for the geothermal distribution project here in Kjos and the tenders are open for the work part.

The plan is to start laying the pipes in April and a prerequisite is a commitment from those that want to participate.

Attached with this letter is a form with a statement of participation and a commitment which needs to be signed and sent back in the preprinted reply envelope, not later than March 20th. 2016

If there is not an interest to participate, then please sign the appropriate form and send back to Kjósarveitur, as it is also important for us to know that as well as the reason for it.

Those that own more than one property are kindly asked to make a copy of the form and fill out a form for each property.

The goal is also to lay a communication fiber optic cable along with the geothermal pipes and an agreement with an internet provider is being worked on. Information about the status of this matter will be on [www.kjos.is](http://www.kjos.is) when there is more news about it

We hope that you will join it this improvement project for all of us that enjoy to be here in Kjós

Sincerely your,

Sigríður Klara Árnadóttir  
General Manager of Kjósarveitur
